Verified scope

ABB identifies DSDP160 as pulse counter board order 57160001-KG. The source describes it as an S100 I/O board for QGLF 108 and lists its product identity, dimensions, weight and control-system categories.

The following two source pages retain the original product-detail information. This cover does not convert catalog identification into unsupported operating limits or compatibility claims.

Engineering checks before replacement

- Confirm DSDP160 and complete order number 57160001-KG on the installed nameplate.
- Verify the S100 I/O rack position, QGLF 108 application and connector arrangement.
- Record the installed hardware revision, pulse-input wiring and project configuration.
- Inspect receiving condition and perform an approved functional test before returning the system to service.
